

Turning Blueprints into Reality...

**AALANNA PROJECTS PVT. LTD.**

**ENGINEERS & CONTRACTORS**

# Overview

Aalanna Projects Pvt. Ltd. is a civil and construction company that has built a strong reputation for delivering quality service, on time, and at a competitive price. We pride ourselves on being skilled and experienced in all aspects of civil construction.

Our commitment to innovation and excellence invariably results in a successfully completed project for client. We understand and promote the idea of working as a partnership with our clients to ensure their goals are met.

We are passionate and driven to continue the high levels of customer satisfaction. We undertake a variety of projects for a wide range of cliental– from small private developments to large infrastructure projects. Our unique and flexible project management systems ensure that a positive outcome is achieved regardless of size or nature of the project.

We provide value-added construction services to our customers by creating a successful partnership with them through out the construction process.

# History

Mr. Jaspal Singh with an experience of over 24 years visualized and sensed opportunities in the civil construction industry and the company Aalanna Projects Pvt Ltd. was formed to take advantage of these opportunities.

This decision proved to be very prudent. The company achieved steady growth due to the successful completion of a variety of projects. The continuing desire for quality and professional service are reengineered to achieve higher customer satisfaction with focus on health and safety and environment protection.

The company under the able leadership and guidance is excited to confront the challenges and seize the opportunities the future will bring.

# Mission

At Aalanna Projects, our mission is to deliver high-quality construction solutions with an unwavering commitment to safety, integrity, and innovation. We strive to build enduring structures and trusted relationships by maintaining the highest standards of workmanship, ensuring a safe working environment, and upholding transparency and accountability in everything we do.

We are dedicated too:

- Creating safe, sustainable, and efficient spaces.
- Promoting a zero-compromise approach to site safety.
- Building a skilled and professional team committed to client success.
- Exceeding expectations through consistent quality and timely delivery.
- With every project, we aim to set new benchmarks in the construction industry through discipline, collaboration, and responsibility.

# Vision

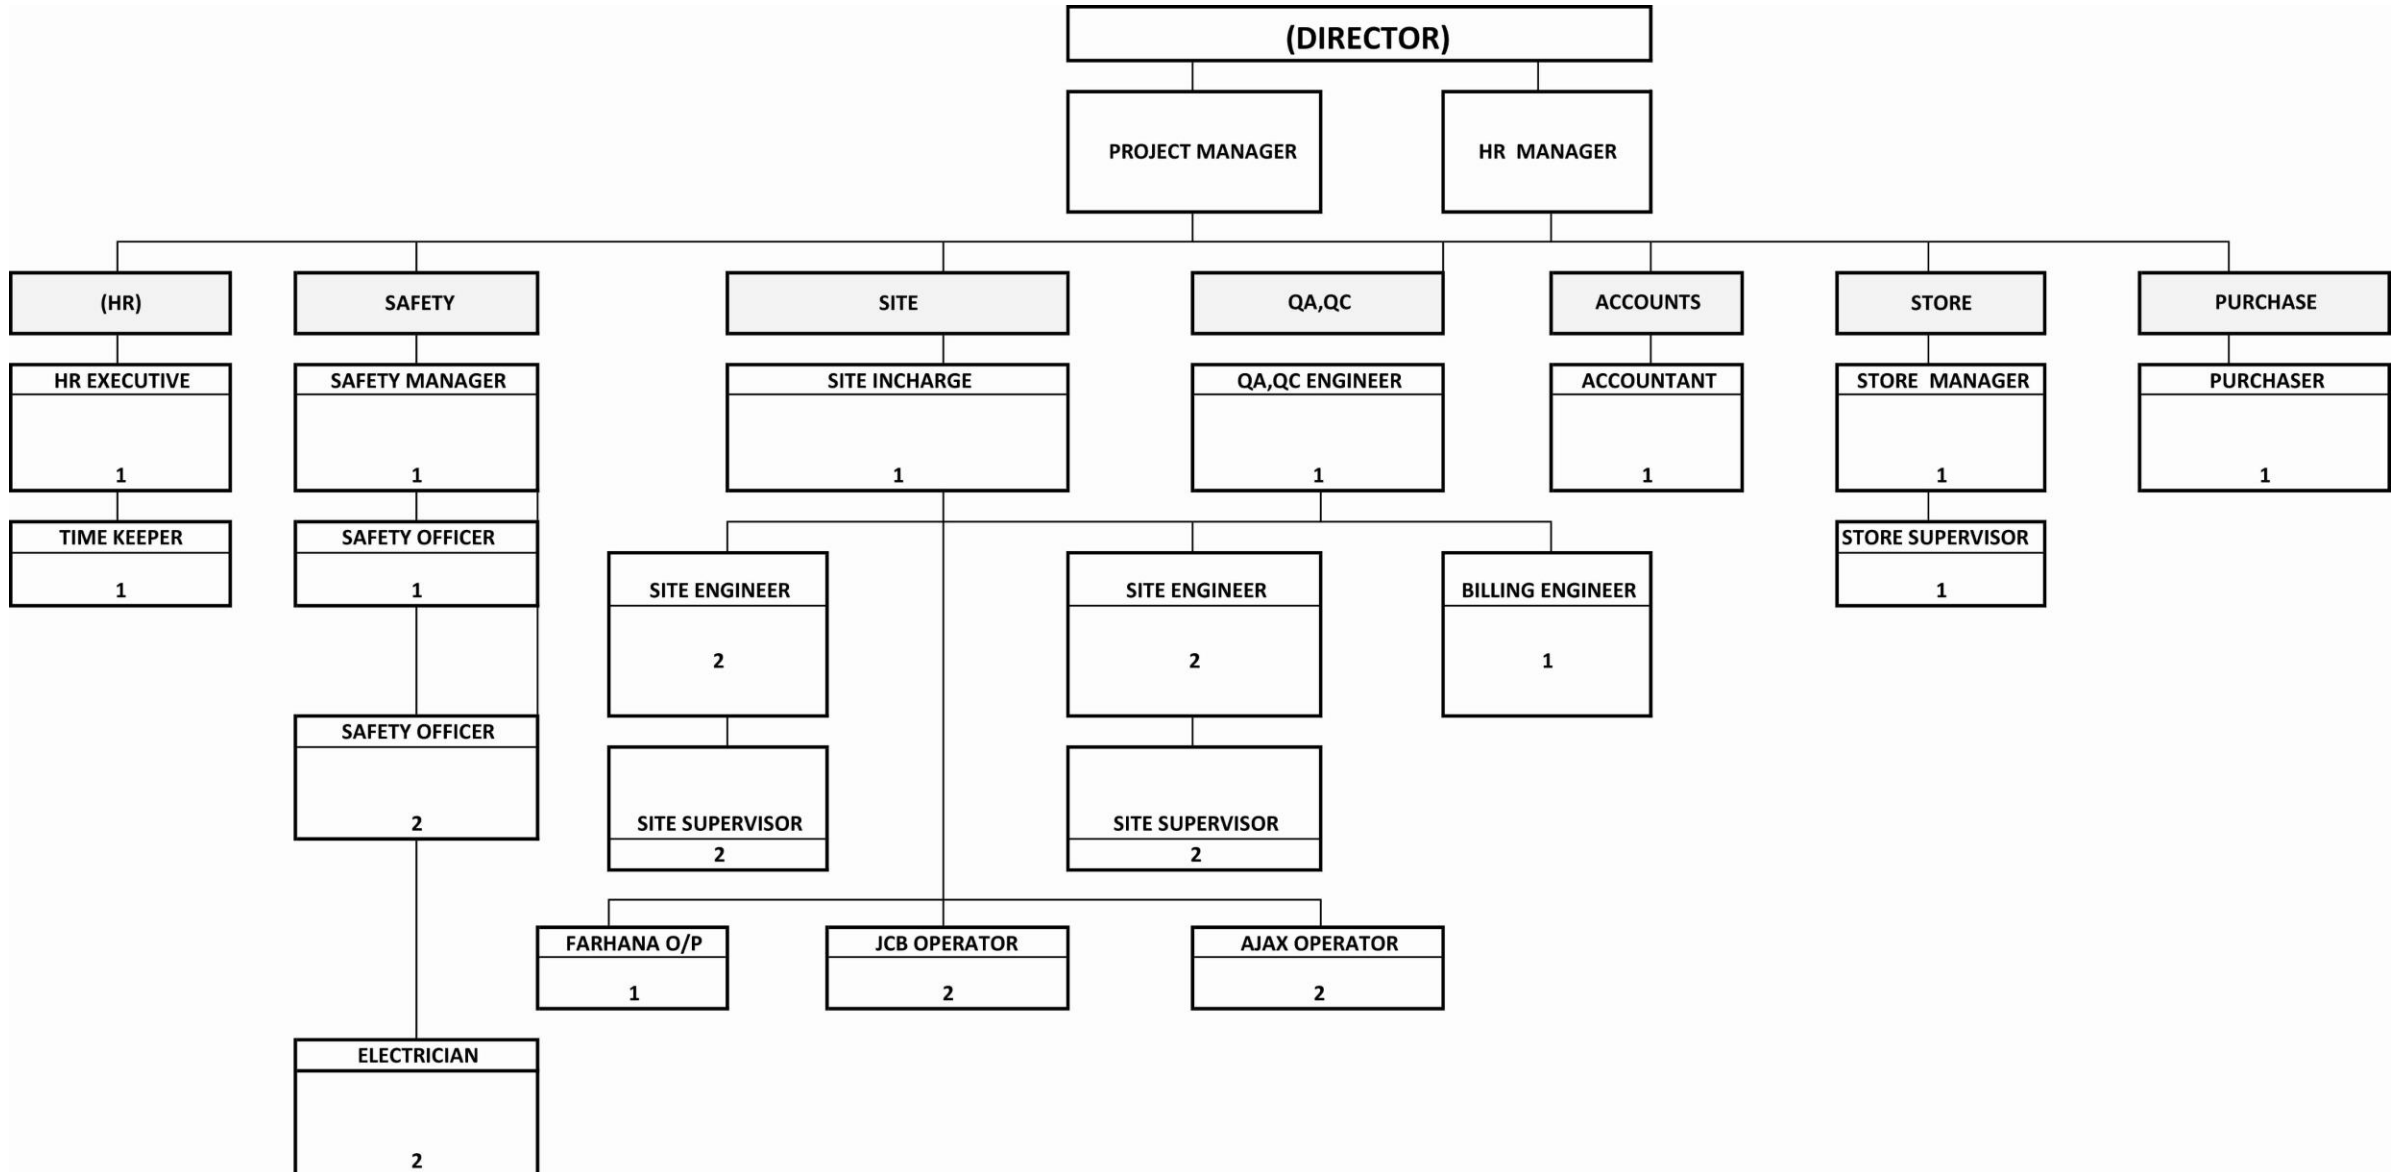

Our Vision reminds each of us of what we should be striving for each day and where we ultimately want to be.

To safely deliver any project, any time, in any environment for the benefit of our customers, stakeholders, employees and the communities we serve.

The health, safety and welfare of all staff, subcontractors and clients

# Site Organisation Chart

# Safety Rules and Regulations

## Construction Site Safety Rules and Regulations in India: Ensuring a Safe Workplace

At Aalanna, we recognize that construction safety is not just a legal obligation but a moral responsibility. With nearly 24% of industrial fatalities occurring in this sector in India, we've embedded rigorous safety protocols aligned with the BOCW Act, Occupational Safety Code, and Factories Act. Our on-site practices prioritize fall protection, equipment safety, and PPE compliance. We ensure strict controls for high-risk tasks such as excavation, working at heights, and handling hazardous materials. Ongoing training, leadership accountability, and modern safety tech (like wearables and drones) are integral to our mission to build responsibly — protecting every life at every stage.
